

State Level Employment Outcomes for Veterans and Disabled Veterans

State Workforce Agencies in every State operate Labor Exchange programs that coordinate the exchange of information from employers regarding available employment opportunities and from job seekers regarding their qualifications for employment. These programs serve all employers and all job seekers at no cost. They also provide priority of service and supplementary assistance to veterans and disabled veterans.

There are two key measures of performance for these State-based programs. The first measure is the Entered Employment Rate, which is the percent of the job seekers served who are employed subsequently. The second measure is the Employment Retention Rate, which is the percent of those entering employment who are found to be still employed two calendar quarters later. These two performance measures are applied to the outcomes achieved by veterans and by disabled veterans. The results achieved by each State for these two measures, applied to both veteran groups, are presented below.

Veteran EER by State Source: ETA 9002 B & D Qtr Ending Dec 2004		Veteran ERR by State Source: ETA 9002 B & D Qtr Ending Dec 2004		Disabled Veteran EER by State Source: ETA 9002 B & D Qtr Ending Dec 2004		Disabled Veteran ERR by State Source: ETA 9002 B & D Qtr Ending Dec 2004
